To participants bringing in own personal computer

Kobe International Conference Center

Requests

If you are planning to bring in your personal computer with you to the site for events or lectures etc., please check the following contents before using your PC.

1) Please check to make sure an output of external display is available.

2) We strongly recommend you to bring in a power supply adapter with you in case of the battery shortage.

3) Please bring in a Mini D-sub convertor with you for output terminal of non-Mini D-sub 15 pins (Mac/ iPad/ HDMI etc.).

 Please refer to the following picture.

4) Recommended Image size (resolution) is XGA (1024 x 768).

5) Please inform in advance whether the output is "image only" or "image and sound".

6) Please make sure to check the image with projector and your PC during preparation.

  *Please make sure to check on setup and performance of your lecture contents in advance during time of recess, etc.

  *The image may not appear properly due to OS version or manufacturer of your PC; therefore, we strongly recommend you to check in advance.
